

## Product Data Sheet for contact with food

Declaration of Compliance Statement – 146 – Permanent Marker Pen  
Applicable Products:

This statement refers to the following Detectamet Polypropylene based products.

Product Code:	Product Description:
146-A05-PO*-A07	Permanent Marker Retractable * Bullet Tip
146-A05-PO*-A08	Permanent Marker Retractable * Chisel Tip
146-A06-PO*-A07	Permanent Marker Non Retractable * Bullet Tip
146-A06-PO*-A08	Permanent Marker Non Retractable * Chisel Tip

Housing and Ink Colours Available:

### Regulations and Standards

We confirm that the above mentioned products are suitable for use in contact with all food types and are in conformity with the applicable requirements of the following regulations and standards:

- Regulation (EC) no.1935/2004 on Materials and Articles intended to come into contact with food.
- Commission Regulation (EU) No.10/2011 on Plastic materials intended to come into contact with food including its updates Regulation 1282/2011 and Regulation 1183/2012.
- Regulation (EC) no. 2023/2006 on Good Manufacturing Practice for materials and articles intended to come into contact with food.
- Council of Europe Resolution AP 89/1 on the use of Colorants in Plastic Materials coming into contact with food.
- US FDA 21 CFR 177.1520 (Olefin polymers) with colorants and additives cleared for use through listing in 178.3297 (Colorants for polymers), 178.2010 (antioxidants and/or stabilisers for polymers, or other respective parts of the FDA regulations).

Migration test data obtained under short-term repeat use test conditions (6dm<sup>2</sup>/kg food) has demonstrated that levels of overall migration and specific migration of additives from these products will not exceed the legal limits with all food types.

Test Simulants	Food Types	Testing Condition
A-C, D1, D2 of Regulation No. 10,2011 for Plastic Materials and Articles in contact with food.	All dry, aqueous, acidic, alcoholic and fatty foods.	2 hours at 70C, Repeat use. Test OM3 of regulation 10/2011

Dual-use food additives may be present but any migration into food will be minimal.

This compliance statement is based on information supplied by the polymer and pigment manufacturers, migration testing according to Regulation 10/2011, migration modelling and quality control systems in place at Detectamet. Supporting documents are available and can be disclosed to the competent authority on request.

**Supporting documents are available and can be disclosed to the competent authority on request.**

**REACH** - No substances of very high concern (SVHC) above the 0.1% weight (w/w) threshold limit are present in the materials.

## GENERAL INFORMATION (FOR GUIDANCE)

### Usage temperature

Maximum use temperature 100°C  
Maximum wash temperature 121°C  
Minimum use temperature, DO NOT USE at deep freeze temperature prior to use

### Cleaning

It is recommended that prior to use, scrapers are cleaned, disinfected & sterilised, as appropriate to their intended use (to minimise risk of microbial growth and cross contamination, maximising their efficiency and durability).

**Supporting documents are available and can be disclosed to the competent authority on request.**

**REACH** - No substances of very high concern (SVHC) above the 0.1% weight (w/w) threshold limit are present in the materials.

No warranty is given or implied with respect to this information or patent infringement. Detectamet Ltd do not accept liability for loss or damage arising from the use of this information. Results are based on a test sample, our general experience and information from our suppliers. Data and results must be confirmed by the buyer by testing for its intended conditions of use.
